DETAILED ACTION

Drawings

1. The drawings were received on January 7, 2005. These drawings are acceptable.

Response to Amendment

2. Applicant's explanation of the instant invention in pointing the difference with the cited prior art was found to be persuasive.

Allowable Subject Matter

3. Claims 10 – 14 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Claims 10 – 14 recite, inter alia, a method of forming holes, comprising the steps of providing a first resist layer having substantially parallel first trench patterns on the dielectric layer on a substrate, curing the first resist layer so that the first resist layer does not dissolve in a resist solvent and forming a second resist layer having substantially parallel second trench patterns on the cured first resist layer, wherein the second trench patterns are substantially perpendicular to the first trench patterns. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Conclusion

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
